Fleet Logistics Review Group (LRG) Welcome

MSgt David P. Turner

Welcome to New Orleans

- Welcome to 2011 LRG
  - ASL, MARFORs, CNAF, Fleet
- Appreciation for Fleet attendance & guest speakers
- This is our meeting for you, a.k.a. your conference
  - Active participation required by you
- Participate in after hour social Tuesday night & discussions

LRG Rules of Engagement

- Please place cell phones on vibrate & ringers off
- Table all current issues—discuss, determine solutions, or assign to appropriate IPT member(s)
- This is your conference to hold open & candid dialogue
  - Maintain one focused conversation
  - Be respectful of other's opinions
  - Julie Trossbach is POC for scheduling all Side Bar Requests
  - Extra Side Bar Requests available
- We'll collect new Action Items; we'll only brief AIs that were staffed & evaluated prior to the LRG
  - Extra Action Item forms available

LRG ROE

- We can only address & fix issues that we know about
- Some items are not ours to resolve. They may belong to ASL, CNAF, the MARFORs or other programs
- Brief your leadership on key points discussed at the MF LRG (Trip Report), so they gain situational awareness of the overall program
  - Need CO & O-6 involvement, so Fleet requirements are rack-n-stacked
- Once a new Fleet requirement is established, on average three years elapse until delivery (if a material solution)

LRG Admin notes
